

Vision A1

Digital scanning analyzer

Key features

- Loading 1 slide
- Automatic sample scanning
- Automatic analysis and classification
- “Remote Microscope” function
- For small and medium-sized laboratories

Scanning process

01

Place the slide to the slide holder

02

Install into the slide scanner and start scanning

03

Get the result!

Application

Hematology

Vision Hema — Automatic blood smear analysis

Vision Extended RBC — Extended red blood cells analysis

Vision Extended PLT — Extended platelets analysis

Vision RET — Reticulocytes analysis

Biological Fluids

Vision Body Fluids — Automatic analysis of human fluids

Cervical Cytology

Vision Cyto Pap — Automatic cervical cancer screening

Vision Cyto Pap ICC — Automatic evaluation of immunocytochemical reaction

Sexually Transmitted Diseases (STD)

Vision Cyto STD — Automatic analysis of sexually transmitted infections

Microbiology

Vision Gram — Automatic Gram smear analysis

Vision Extended Gram — Extended Gram smear analysis

Cytology and Histopathology

Vision Cyto — Visualization and organization of cytology studies

Vision Slide — Histology, clinical and scientific studies

Veterinary

Vision Slide Vet — Digital cytology and histopathology

Vision Hema Vet — Automatic animal blood smear analysis

Specifications

Key features

Vision A1

Working mode	Continuous loading
Scanning	Automatic
Loading a slide	1 slide
Specifications	Scanning microscope Personal computer Monitor
Objectives*	20x, 60x OI
Research method	Bright field
Illumination	Köhler illumination, LED
Communications	Bidirectional connection to LIS, LIS2-A2 (ASTM), HL7

* Depends on the configuration

Additional services

Vision Slide Viewer

www.visionviewer.at

Free software for installation on Windows PC

View of digital slides on a personal computer

Pathoview

www.pathoview.com

Service for working with digital slides via Internet browser

Download, view, store and share digital slides

Vision Suite

www.vision-suite.com

Service for remote work with Vision software via Internet browser

Work with the database and Vision analysis results in the cloud

Vision Expertise

www.vision-expertise.com

Online testing of specialists in microscopy

For training and professional development of specialists

Pre-classification has to be validated by the specialist reviewing the galleries of cells.

Please check the intended use and the registration in your local regulation.

Depending on the regulations of the respective region, some products may be used for research purpose only.

We reserve the right to change specification without notice.
